Project

Frontend Mentor Space tourism multi page website

Its a project by Frontend Mentor.

In which I have to convert the given Figma design to a working site.

Notes app

In this project I have created a notetaking app using HTML CSS and JavaScript.

Portfolio

It is my portfolio website which I build during learning through freeCodeCamp.

Achievements

I am a self-taught web developer. I have the eagerness to learn new technologies in the IT field which led me through the path of web development.

During the process, I faced many difficulties which I overcome by correcting myself and gaining knowledge about them.
